

## Laymen Report, October 2025

Since our last session, the Laymen have continued in it's mission of service to God, application of the Gospel, and fellowship in the New Era District. We have completed another special project for a senior disabled member. We have been faithful in holding our early morning service, and sponsoring the Louis B. Parker Scholarship Award.

We have members who continually work, serve and mentor in the Good Dads Ministry with Mt. Sinai as the sponsoring Church. We worked with the Local Entertainment Committee and it's leadership in the planning and facilitating of the recent National Baptist Convention held here in Kansas City. We have followed and supported the Moderator of our district in the carrying out of his administration.

We have visited sick and shut-in members, involved in food banks, clothes drives and aid to the less fortunate. We have supported and attended the events of other auxiliaries within our district. We confidently look forward to the service and future of this Ministry in the name of Jesus Christ the Saviour
